

Year 3 HWK

Challenges

Summer 2nd Half-Term

"How Does Your Garden Grow?"

Maths: Game Designer

Can you create a maths game with a GARDEN theme? You could make a board game, card game or even a maths jigsaw puzzle! You can base your game on any maths topics we have studied this year such as: angles, fractions, addition, subtraction, division, multiplication, measurement or shape.

Science and History: Plant Historian

Create a fact file about the different uses of plants in different Historical Periods. Were any plants used for different things than they are today?

Science and Art: Life Cycles

Design a poster to show the different stages in the life cycle of a plant. Make sure you label and describe each stage!

Science: Nature Journal

Make a nature journal about one or each of the different seasons. What changes take place during each of the seasons and how does this change effect plants? Think about your own garden for ideas.

Art: Pebbles of Thought

Decorate a small pebble or stone to put in our school garden. It would be nice to decorate them with one of your favourite memories from Year 3. This might be through a picture or in words or both.

English Story

Write a garden themed story with magic involved somewhere!

Want to earn extra housepoints?

Love doing HWK challenges?

Why not try to complete some of the tasks from here to increase your understanding of our current topic and boost your weekly housepoint totals?

(Tick and date the task when you have finished it).

Each task has housepoints to earn. Housepoints will be awarded based on the effort you have put in.

Remember to think about the presentation of your work and enjoy yourself.

You can complete as many of the tasks as you like in this half term.

Happy homeworking! *Mr Hodge.*

Come and See: World

How do you contribute to helping look after God's world? Design a poster about this OR write a prayer of thanks to God.

REMEMBER:

You **NEED** to do your Learn Its and CLIC questions/corrections each weekend in your HWK book. You should try to read your reading book as well. They may be spelling/phonics words to learn? There are also questions to try on 'My Maths' (use your username and password to log-in). Finally, why not log-in to Class Dojo and send a 'Story' to the class page?! We'd love to hear what you have been up to!
